1000 Hacienda Carmel, Carmel, CA 93923 (831) 624-8261 haciendacarmel.org

# Emergency Preparedness and Evacuation Plan

Evacuation order means leave immediately. Leave without waiting for an HCCA alert, a knock at the door, or Front Desk check-out. If trapped or in immediate danger, call 911 and give the exact location.

## Follow Official Instructions

- Evacuation warning. Get ready to leave. Residents who need extra time, accessible transportation, or help with pets or medical equipment should plan to leave early. An order may come without a warning.
- Evacuation order. Follow official route and shelter directions. Take pets and essentials if doing so causes no delay. Return only when officials authorize reentry.
- Shelter-in-place order. Stay where directed and follow the instructions for that incident. Monitor official updates.

## Flooding and Road Closures

The Via Mallorca bridge crosses the Carmel River. The bridge and other exits may be affected by flooding, fire, debris, or road closures. Follow current route directions from public safety officials. Never walk or drive through floodwater or go around a road closure. If rising water cuts off escape, move to higher ground if safely accessible and call 911.

## Prepare Before an Emergency

- Sign up at AlertMontereyCounty.org. Save ReadyMontereyCounty.org/emergency for official alerts and the County emergency map. The HCCA Information Line at 831-625-7838 and BuildingLink may carry supplemental updates as available.
- Arrange transportation and a backup ride in advance, especially if accessible transportation is needed. Choose an out-of-area contact and a safe place to stay. Plan for pets, mobility devices, and power-dependent medical equipment.
- Keep a go bag handy with medications, identification, water, a flashlight, a phone charger, and essential pet supplies. Keep emergency supplies at home in case officials direct residents to shelter in place.

Hacienda Carmel is a homeowners association. HCCA may relay official updates. HCCA does not provide emergency response, welfare checks, evacuation transportation, medical care, shelter, or resident tracking.

*This plan supersedes the emergency preparedness and evacuation plan approved December 16, 2024, and amended September 25, 2025.*
